Don't Let Metalworking Fires Put Your Facility in Hot Water

Adopting Sentry's recommended procedures can help you reduce your fire exposures.

Sentry is a leading provider of insurance and safety services for the metalworking industry. Put our expertise to work for you. Sentry's experienced safety professionals recommend that metalworking customers adopt specific prevention procedures covering:

- Wiring and electricity
- Heating
- Flammable and combustible liquids
- Sprinkler systems and fire extinguishers
- Spray finishing

These recommendations, designed to help you reduce your claims, are detailed in *Sentry Solutions – The Guide to Controlling Fire Hazards in Metalworking Facilities*.

With Sentry's help, you'll spend less time worrying about fire exposures and more time focusing on running your business successfully.

Visit us at sentry.com for more information on reducing risks associated with your business.

Sentry Insurance – We know your business.

Claim File

A late night fire ignited near a free-standing paint booth in an auto exhaust manufacturing plant. The fire spread, completely destroying the paint booth and the exhaust stack before firefighters responded. Claims adjusters determined that the fire was due to the spontaneous combustion of solvent-soaked rags. The loss could have been avoided with proper storage of rags.

Products and safety services are underwritten, issued and/or administered by a member of the Sentry Insurance Group, Stevens Point, WI. For a complete listing of companies, visit sentry.com. Policies, coverages, benefits and discounts are not available in all states. Certain restrictions apply. See policy for complete coverage details.

This page contains general information on reducing risk. Sentry recommends that you consult with your legal counsel as appropriate.
