Don't Let an Emergency Catch Your Facility Unprepared

Adopting Sentry's recommended procedures can help you prepare for and respond to emergency situations.

Sentry is a leading provider of insurance and safety services for the metalworking industry. Put our expertise to work for you. Sentry's experienced safety professionals recommend that metalworking customers adopt emergency preparedness procedures covering:

- Evacuations
- Medical Assistance
- Emergency Response Teams
- Personal Protection Equipment
- Business Continuity Plans
- Security

These recommendations, designed to help you reduce your claims, are detailed in *Sentry Solutions – The Guide to Emergency Preparedness and Response*.

With Sentry's help, you'll spend less time worrying about emergencies and more time focusing on running your business successfully.

Visit us at sentry.com for more information on reducing risks associated with your business.

Sentry Insurance – We know your business.

Claim File

An employee machining a block of magnesium hit another type of metal in the block, creating a spark that caused the cooling oils to ignite. Despite the use of extinguishers and buckets of graphite to control the fire, the mixture of cutting oils, smoke and the extinguishing agents caused hydrochloric acid to form. Damage to nearby machines and building components, plus business interruption loss totaled \$4.4 million.

Products and safety services are underwritten, issued and/or administered by a member of the Sentry Insurance Group, Stevens Point, WI. For a complete listing of companies, visit sentry.com. Policies, coverages, benefits and discounts are not available in all states. Certain restrictions apply. See policy for complete coverage details.

This page contains general information on reducing risk. Sentry recommends that you consult with your legal counsel as appropriate.
