Don't Let Mechanical Material Mishandling Leave Your Facility Amputated

Adopting Sentry's recommended procedures can help you reduce your material handling exposures.

Sentry is a leading provider of insurance and safety services for the printing industry. Put our expertise to work for you.

Sentry's experienced safety professionals recommend that printers adopt material mishandling prevention procedures covering:

- Forklifts, motorized hand trucks and order-pickers
- Crane and hoist safety procedures
- Protection of property and surroundings
- Energy and fuel practices
- Sling safety

These recommendations, designed to help you reduce your claims, are detailed in *Sentry Solutions – The Guide to Mechanical Material Handling*.

With Sentry's help, you'll spend less time worrying about material mishandling and more time focusing on running your business successfully.

Visit us at sentry.com for more information on reducing risks associated with your business.

We know your business.**

Claim File

A forklift operator moved a truckload of paper rolls to a warehouse. After adding a roll to an existing stack, the operator backed into a congested aisle and struck a passing employee. The injured employee sustained multiple fractures to his right ankle, resulting in surgery and several months off work.

Products and safety services are underwritten, issued and/or administered by a member of the Sentry Insurance Group, Stevens Point, WI. For a complete listing of companies, visit sentry.com. Policies, coverages, benefits and discounts are not available in all states. Certain restrictions apply. See policy for complete coverage details.

This page contains general information on reducing risk. Sentry recommends that you consult with your legal counsel as appropriate.
