Don't Let Unsafe Conditions Put Your Facility on the Skids

Adopting Sentry's recommended procedures can help you reduce your plant and premises exposures.

Sentry is a leading provider of insurance and safety services for the printing industry. Put our expertise to work for you.

Sentry's experienced safety professionals recommend that printers adopt facility exposure prevention procedures covering:

- Housekeeping policies
- Self-inspection processes
- Plant safety
- Fire safety
- Exterior premises safety

These recommendations, designed to help you reduce your claims, are detailed in *Sentry Solutions – The Guide to Plant and Premises Safety*.

With Sentry's help, you'll spend less time worrying about employee safety and more time focusing on running your business successfully.

Visit us at sentry.com for more information on reducing risks associated with your business.

We know your business.**

Claim File

After changing a drum of blanket wash in the chemical storage room, a printing employee failed to attach a grounding wire to the new drum. Another employee later began refilling empty bottles. The liquid's movement generated static electricity, which ignited the blanket wash in the ungrounded drum and caused an explosion. The employee received severe burns from the incident.

Products and safety services are underwritten, issued and/or administered by a member of the Sentry Insurance Group, Stevens Point, WI. For a complete listing of companies, visit sentry.com. Policies, coverages, benefits and discounts are not available in all states. Certain restrictions apply. See policy for complete coverage details.

This page contains general information on reducing risk. Sentry recommends that you consult with your legal counsel as appropriate.
