We know the players are looking forward to new experiences on a renovated course. The Plantation Course underwent a nine-month, multi-million-dollar enhancement and refinement project in 2019. New changes make the course challenging enough for the professional champions one week a year, while remaining forgiving enough for regular players to enjoy the other 51 weeks.

As the title sponsor, we remain firmly committed to working with the PGA TOUR to provide a first-class experience during this champions-only event. That includes offering opportunities to share the fun with friends and family, including these new initiatives in 2020:

- **Ohana Day:** New this year is Ohana Day. Ohana is the Hawaiian word for family. This family day meet-and-greet with local celebrities and PGA TOUR players will honor the Wailuku Little League team and other local charities.

- **Go Hawaiian:** Did you know Maui starts every weekend with Aloha Friday? This year, if a player gets into the spirit of this tradition by wearing an aloha print, we'll donate \$1,500 to the Maui charity of his choice.
- **Salute to our military:** With a nod to veterans and service members, the Sentry Tournament of Champions and Southwest Airlines now offer complimentary admission for all veterans and retired, active, reserve, and National Guard military members.

We've also boosted our year-round charitable endeavors. In addition to supporting tournament-designated charities, we've donated to the Maui United Way and set up a scholarship program through the island's public schools. It's all part of strengthening our relationships with Maui, Kapalua, and the PGA Tour.
