

Balanced Aggressive Growth Account

Invests in the Janus Henderson Global Allocation Growth Fund - Institutional Shrs

Benchmark MSCI ACWI NR USD

Investment objective and strategy

The investment seeks total return through a primary emphasis on growth of capital with a secondary emphasis on income. The fund invests in other Janus mutual funds ("underlying funds") that represent a variety of asset classes and investment styles and provide exposure to issuers that are economically tied to countries throughout the world. It invests in a diversified portfolio of underlying funds, resulting in an allocation of the fund's investments that normally provides exposure of approximately 75% to equity investments, 15% to fixed-income securities and money market instruments, and 10% to alternative investments.

Category - World Allocation

World-allocation portfolios seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. While these portfolios do explore the whole world, most of them focus on the U.S., Canada, Japan, and the larger markets in Europe. It is rare for such portfolios to invest more than 10% of their assets in emerging markets. These portfolios typically have at least 10% of assets in bonds, less than 70% of assets in stocks, and at least 40% of assets in non-U.S. stocks or bonds.

Asset allocation

Cash	2.89%
U.S. stocks	56.84%
Non-U.S. stocks	19.32%
