

Small Cap Blend Account I

Invests in the T. Rowe Price Small-Cap Value fund

Benchmark Morningstar US Small TR USD

Investment objective and strategy

The investment seeks long-term capital growth. The fund will invest at least 80% of its net assets (including any borrowings for investment purposes) in companies with a market capitalization that is within or below the range of companies in the Russell 2000 Index. It may invest in foreign stocks in keeping with the fund's objectives. The fund may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Category - Small Blend

Small-blend portfolios favor U.S. firms at the smaller end of the market-capitalization range. Some aim to own an array of value and growth stocks while others employ a discipline that leads to holdings with valuations and growth rates close to the small-cap averages. Stocks in the bottom 10% of the capitalization of the U.S. equity market are defined as small cap. The blend style is assigned to portfolios where neither growth nor value characteristics predominate.
