

Emerging Markets Account

Invests in the American Funds New World Fund – R6 Shrs

Benchmark Morningstar EM TME NR USD

Investment objective and strategy

The investment seeks long-term capital appreciation. The fund invests primarily in common stocks of companies with significant exposure to countries with developing economies and/or markets. Under normal market conditions, the fund will invest at least 35% of its assets in equity and debt securities of issuers primarily based in qualified countries that have developing economies and/or markets.

Category - Diversified Emerging Mkts

These portfolios invest at least 70% of total assets in equities and invest at least 50% of stock assets in emerging markets (such as China, India, Russia, Turkey, and Brazil). Morningstar classifies countries as developed or emerging based on per capita gross national income, as defined by the World Bank. The World Bank classifies countries as low income, middle income, upper middle income, and high income. With very few exceptions, the countries with high income are considered developed markets.
