

# Large Cap Growth Account IV

Invests in the T. Rowe Price Blue Chip Growth Fund – I Shrs  
 Benchmark Morningstar US LM Brd Growth TR USD

## Investment objective and strategy

The investment seeks long-term capital growth. Income is a secondary objective. The fund will normally invest at least 80% of its net assets in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market positions, seasoned management, and strong financial fundamentals.

## Category - Large Growth

Large-growth portfolios invest primarily in big U.S. companies that are projected to grow faster than other large-cap stocks. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large cap. Growth is defined based on fast growth (high growth rates for earnings, sales, book value, and cash flow) and high valuations (high price ratios and low dividend yields). Most of these portfolios focus on companies in rapidly expanding industries.
